

MONOGRAM CAREER NETWORK

Connecting Notre Dame Student-Athletes With Career Opportunities

“My experience with the MCN has been incredible. I was shocked at how alumni will go so far out of their way to put me in contact with colleagues in my desired field regarding possible internships or simply someone to talk to to get advice. This involved community gives me great confidence of finding future employment and then having the opportunity to give back and do the same as an alumni. Within hours of talking to Will McCarthy ('95, swimming), I was put in contact with two MCN members who work in finance in my hometown of Chicago who were willing to talk to me about their careers and help me find internship opportunities.”

Billy was connected with MCN advocates in Chicago and has begun preliminary conversations on the next steps for pursuing opportunities within the finance industry.

Billy Barth
Freshman
Swimming

MCN FACTS

- Launched in January of 2014
- 225+ alums signed up to assist
- 74 student-athletes enrolled in 2015-16 program
- 200+ student-athletes have been connected to career opportunities as a result of their involvement in the MCN

MCN ACTIVITIES

- On campus networking events
- Regional networking sessions
- Resume reviews
- Informational interviews
- Job shadowing
- Company tours for teams

Katie Higgins
Junior
Volleyball

“My MCN interactions with Linda Kohan ('09, softball) was a great experience. She put me in contact with multiple people in industries that I am interested in in Chicago. Specifically, she connected me with Jennette Rauch, a Notre Dame grad at Wilson Sporting Goods. Jennette then helped push my resume through to hiring managers at Wilson which resulted in earning an internship offer for this summer. I am extremely grateful for the MCN to put me in contact with Linda and Jennette.”

Katie accepted a summer internship with Wilson Sporting Goods in Chicago.

“The most impressive resource that the MCN provides is time. All of the people involved in MCN are extremely important and busy individuals, and the fact that they all take time out of their schedules for current student-athletes is very impressive to me. It shows that they genuinely care about the current students' well-being and future.”

James accepted a full-time position in the Goldman Sachs Asset Management Division in New York City upon graduation in May.

James Nevant
Senior
Baseball

“Anything that connects current and former student-athletes is invaluable. That connection helps us to make good on the promise we make to students when they come here that they will join a community that will be with them for the rest of their lives. Monogram Club members play a critical role in helping us deliver on that promise when they build those relationships, when they make themselves available, when they're a resource in any way, but especially in terms of furthering the careers of students at Notre Dame.”
