

HIGHER EDUCATION ACT REPORTING

2017-18

Reporting of Institutional Information Concerning Intercollegiate Athletics Programs

All coeducational institutions of higher education that participate in any Federal student financial aid program (Federal Pell, Federal SEOG, and Federal SSIG Grants; Federal Work Study; and Federal Family Education, Federal Perkins, and William D. Ford Federal Direct Loans) and have intercollegiate athletics programs must provide information concerning their intercollegiate athletics programs under the Equity in Athletics Disclosure Act of 1994, Section 485g of the Higher Education Act of 1965, 20 U.S.C. 1092.

This act and accompanying Federal regulations require that the following information, based on the previous reporting year, be available for inspection by students, prospective students, and the public by October 15 each year.

An institution may use this or any format to disclose this information.

Name of Reporting Institution: University of Notre Dame

Information for the Reporting Year: FY 2017-18 Beginning: July 1, 2017 Ending: June 30, 2018

Number of Undergraduates (i.e., full-time, baccalaureate, degree-seeking students) by Gender: (Use fall semester enrollment figures)

	Number	Percent
Male undergraduates:	4,467	52.5%
Female undergraduates:	4,042	47.5%
Total undergraduates:	8,509	100.0%

Institutional Contact:

Primary Contact Person: Melissa Conboy
Signature: *M. Conboy*
Title: Sr. Deputy Athletics Director
Telephone Number: (574) 631-5143
e-mail address: mconboy@nd.edu
Date Completed: 10/15/2018

Current Classification:

NCAA Division I-A XX II (with football) _____
I-AA _____ II (without football) _____
I-AAA _____ III (with football) _____
III (without football) _____

TABLE 1 - ATHLETICS PARTICIPATION

Federal regulations require that the following information, based on the previous reporting year, be available for inspection by students, prospective students, and the public by October 15 of each year.

This table lists the number of participants by gender for each varsity team. According to the published federal regulations governing EADA reporting, a participant is defined as a student-athlete who, as of the day of a varsity team's first scheduled contest -

- a. is listed by the institution on the varsity team's roster; or
- b. receives athletically related student aid; or
- c. practices with the varsity team and receives coaching from one or more varsity coaches.

Any student-athlete who satisfies one or more of these criteria is a participant, including a student on a team the institution designates or defines as junior varsity, freshmen, or novice, or a student withheld from competition to preserve eligibility (i.e. redshirt) or for academic, medical, or other reasons.

TABLE 2A --- HEAD COACHES ASSIGNMENTS MEN'S TEAMS

This table lists the number of head coaches assigned to each men's team, whether that coach is a male or female, whether that coach is assigned to that team on a full-time or part-time basis, and whether that coach is a full-time employee of the institution. The table includes paid coaches, volunteer coaches, interns, and graduate assistant coaches. For purposes of this report, the term "Full Time Coaching Duties" means the individual's employment responsibilities at the institution are exclusively those as coach of that team, and only that team, and are consistent with the institution's definition of a full-time employee of the institution (e.g., 40 hours per week or more) or part-time employee of the institution (e.g., less than 40 hours per week). For purposes of this report, the term "Full Time University Employee" means the individual's overall employment responsibilities at the institution are consistent with the institution's definition of a full-time employee (e.g., 40 hours per week or more) although that individual may have responsibilities other than as coach of that team, either within the athletic department or another department of the institution. USE WHOLE NUMBERS ONLY.

* Per capita expense for "Track and Field, X-Country" determined using total number of participants for cross country, indoor track, and outdoor track.

Table 4

TABLE 5 - RECRUITING EXPENDITURES

This table lists the total institutional expenditures associated with recruiting for the teams. Costs include, but are not limited to: transportation, lodging, and meals for both recruits and institutional personnel engaged in men's and women's recruiting; expenditures for official and unofficial visits; and all other major expenses logically related to recruiting.

Recruiting Expenditures	Dollars	Percent of Total
Men's Teams	\$1,863,157	78.0%
Women's Teams	\$524,719	22.0%
Football	\$1,168,285	48.9%
Men's Basketball	\$281,460	11.8%
Women's Basketball	\$199,499	8.4%
Other Men's Teams	\$413,412	17.3%
Other Women's Teams	\$325,220	13.6%
Total Recruiting Expenses	\$2,387,876	100.0%

TABLE 6 - ATHLETICALLY RELATED STUDENT AID

This table lists the total of athletically related student aid awarded men and women student-athletes. Athletically related student aid is aid awarded a student that requires the student to participate in an intercollegiate athletics program. The average costs of a full grant-in-aid for in-state and out-of-state student-athletes are also listed.

Athletically Related Student Aid	Dollars	Percent of Total
Men's Teams	\$13,904,581	58.4%
Women's Teams	\$9,906,232	41.6%
Football	\$6,587,104	27.7%
Men's Basketball	\$913,335	3.8%
Women's Basketball	\$845,056	3.5%
Other Men's Teams	\$6,404,142	26.9%
Other Women's Teams	\$9,061,176	38.1%
Total Amount	\$23,810,813	100.0%

Average Cost of Full Athletic Grant-In-Aid:

In-State	\$68,395
Out-of-State	\$68,395

TABLE 7 - REVENUES

This table lists the total revenue attributed to specific teams for all men's and all women's teams. Revenue includes ticket sales; student activity fees; guarantees; contributions from alumni and others; state or governmental support; institutional support; post-season compensation; concessions; radio and television; special events; program sales and advertising; signage, sponsorships, and royalties; sports camps; and all other revenues intended for intercollegiate sports.

Revenue Attributed to Specific Teams	Dollars	Percent of Total
Men's Teams	\$115,727,087	97.19%
Women's Teams	\$3,351,055	2.81%
Total Revenue	\$119,078,142	100.00%

TABLE 8 - HEAD COACHES SALARIES

This table lists the average annual institutional salary of the head coaches of the men's and women's teams. Volunteer head coaches and head coaches whose salaries are paid by entities other than this institution are excluded from this calculation. Average salaries are listed as dollars per full-time equivalency as well as dollars per actual number of coaching positions.

Average Salaries of Head Coaches	Dollars per FTE	FTEs	Dollars per Position	Number of Positions
Men's Teams	\$554,846	10.00	\$462,372	12
Women's Teams	\$395,721	10.00	\$329,768	12

TABLE 9 - ASSISTANT COACHES SALARIES

This table lists the average annual institutional salary of the assistant coaches of the men's and women's teams. Volunteer assistant coaches and assistant coaches whose salaries are paid by entities other than this institution are excluded from this calculation. Average salaries are listed as dollars per full-time equivalency as well as dollars per actual number of coaching positions.

Average Salaries of Assistant Coaches	Dollars per FTE	FTEs	Dollars per Position	Number of Positions
Men's Teams	\$243,799	31.50	\$213,324	36
Women's Teams	\$102,409	21.50	\$84,684	26

TABLE 10 - OVERALL REVENUES AND EXPENSES

This table lists the total overall revenues and expenses for all men's and women's programs as well as revenues and expenses not allocated to specific teams or not allocated by gender. The table also provides the same information for football, men's and women's basketball, and all other men's and women's sports.

Revenue includes ticket sales; student activity fees; guarantees; contributions from alumni and others; state or governmental support; institutional support; post-season compensation; concessions; radio and television; special events; program sales and advertising; signage, sponsorships, and royalties; sports camps; and all other revenues intended for intercollegiate sports.

Expenses include appearance guarantees and options; athletically-related student aid; contract services; equipment, fund-raising activities, operating expenses, promotional activities, recruiting expenses, salaries and benefits, supplies, travel, and any other expenses attributable to intercollegiate activities. Debt service and capital expenses are not included in these totals.

Sport	Revenues		Expenses	
	Dollars	Percent of Total	Dollars	Percent of Total
Football	\$107,434,072	71.9%	\$42,822,063	31.6%
Men's Basketball	\$3,577,881	2.4%	\$6,876,483	5.1%
All Other Men's Teams	\$4,715,134	3.2%	\$17,355,612	12.8%
Not Allocated to Specific Men's Teams	\$0	0.0%	\$0	0.0%
Total Men's Program	\$115,727,087	77.4%	\$67,054,158	49.5%
Women's Basketball	\$1,736,921	1.2%	\$6,738,371	5.0%
All Other Women's Teams	\$1,614,134	1.1%	\$16,783,692	12.4%
Not Allocated to Specific Women's Teams	\$0	0.0%	\$0	0.0%
Total Women's Program	\$3,351,055	2.2%	\$23,522,063	17.4%
Not Allocated by Gender	\$30,430,388	20.4%	\$44,903,779	33.1%
Grand Totals	\$149,508,530	100.0%	\$135,480,000	100.0%

Total Revenue and Operating Expenses of the Entire Institution

As indicated on the Institution's Financial Statement

	Revenues	Expenses
Total for the Entire Institution*	\$1,187,205,000	\$1,169,287,000

* As indicated on the institution's 2017 final financial statements. 2018 financial statements for the University will be available November, 2018

EADA Report for October 15, 2018

1. On-the-Field Success

The University of Notre Dame has positioned all 26 of its varsity sports to compete for championships on an annual basis, as a result of budget increases, scholarship and facility additions, plus other continued improvements over the last several decades. That across-the-board success has been exhibited by three top-10 finishes in the last six years (including third place in 2013-14) by Notre Dame in the Learfield NACDA Directors' Cup Division I all-sports competition. Notre Dame has finished in the top 27 every year since 1998-99.

Of the 31 all-time national championships won by Notre Dame, **11 of the last 12 NCAA titles have involved a women's team (women's and men's combined fencing crowns in 1994, 2003, 2005, 2011, 2017 and 2018; women's soccer in 1995, 2004 and 2010; women's basketball in 2000-01 and 2017-18; men's soccer in 2013)**. From 1995-2003, Notre Dame was one of only four schools in all of NCAA Division I to win national championships in three different women's sports. Notre Dame now has won six NCAA titles in the last 10 years—most in any 10-year span in school history.

Notre Dame teams won two Atlantic Coast Conference championships in 2017-18—in **women's basketball (regular-season title)** and men's lacrosse (conference tournament)—in the fifth season of play for Irish teams in that league.

Notre Dame also won two Big Ten Conference titles—both the regular-season and postseason tournament crowns in hockey.

The most distinguished of Notre Dame's postseason finishes in 2017-18 included:

- **An NCAA title in women's basketball**
- **A second straight NCAA title in fencing (a combined men's and women's championship)**
- An NCAA Frozen Four national title-game appearance in hockey
- A final number-11 ranking (USA Today) and Citrus Bowl victory in football
- **An NCAA Round-of-16 appearance in women's soccer**
- NCAA second-round appearance in men's soccer and men's tennis
- **NCAA first-round appearances in volleyball and men's lacrosse**
- **An NCAA regional finalist appearance in softball**

Additional NCAA Championship finishes by Irish teams included 23rd in men's swimming and diving, 28th in men's indoor track and field, **41st in women's swimming and diving, 45th in women's golf, 46th in women's outdoor track and field and 54th in women's indoor track and field.**

Final national poll rankings in their respective sports for Notre Dame programs in 2017-18 included:

- **1st in women's basketball**
- **2nd in women's fencing**
- 2nd in hockey

- 3rd in men's fencing
- 9th in men's lacrosse
- 11th in football
- 18th in men's soccer
- **18th in women's soccer**
- 19th in men's swimming and diving
- **19th in women's swimming and diving**
- 26th in men's tennis
- **33rd in women's indoor track and field**

Irish head fencing coach **Gia Kvaratskhelia**, women's basketball coach **Muffet McGraw** and hockey coach Jeff Jackson all were named national coach of the year in 2017-18.

Many Notre Dame athletes enjoyed individual success throughout the 2017-18 seasons:

--Nick Itkin (fencing, men's foil) won an NCAA individual championship in 2017-18, while an NCAA individual runner-up honor went to **Sabrina Massialas (fencing, women's foil)**.

--**Arike Ogunbowale (women's basketball)** was selected as the most outstanding performer in the NCAA Women's Basketball Championship. She and her teammates earned an ESPY for the 2017-18 Play of the Year.

--Cale Morris (hockey) received the Mike Richter Award (national goaltender of the year) and also was named Big Ten Conference Player of the Year, Big Ten Goaltender of the Year and the Big Ten Tournament Most Outstanding Player.

--**Amanda Sirico (women's fencing)** was named the Atlantic Coast Conference Fencer of the Year in epee.

--John Sexton (men's lacrosse) received the USILA William C. Schmeisser Award (national defensive player of the year) and also was named ACC Defensive Player of the Year.

2. Academic Success

The University of Notre Dame is a community of students and teachers dedicated to making the world a better place and poised to become the premier center for Catholic intellectual life. As a Catholic university, Notre Dame espouses Christian values and principles that include the development not only of the intellect and the spirit but also the body. Throughout its long and proud history, Notre Dame has embraced the philosophy that a well-rounded athletics program--including club, intramural and intercollegiate competition--comprises an integral part of its educational mission. This philosophy reflects the pursuit of excellence in intercollegiate athletics within the framework of an academic community committed to the University's educational and religious objectives. The commitment to these objectives is evident in the impressive statistics and honors awarded by the NCAA to Notre Dame for the academic success of its student-athletes. Whether measured by the federal government in its Department of Education report or by the NCAA through its Graduation Success Rate (GSR) and Academic Progress Rate (APR) figures, graduation rates for Notre Dame student-athletes continue to rank among

the national leaders in all major categories among all Football Bowl Subdivision colleges and universities, according to the statistics released in 2017-18 by the NCAA.

Here's a summary of the various graduation rate numbers released by the NCAA during the 2017-18 academic year, including details of the NCAA-sponsored GSR and APR surveys, as well as federal rates compiled by the Department of Education (all rankings and comparisons are based on the Football Bowl Subdivision institutions):

A. Graduation Success Rate (four-class averages based on entering classes of 2007 through 2010)

- Notre Dame ranked first among all FBS programs for the 11th straight year in graduation rate for all-student-athletes at 98 and finished first on a percentage basis in number of 100 scores for the 12th time in 13 years as 18 of 22 sports recorded 100 scores.
- Notre Dame ranked first among all student-athletes (98), male student-athletes (98) and **female student-athletes (99)**.
- Notre Dame produced eight men's scores that ranked first within their respective sports (basketball, cross country/track and field, fencing, golf, lacrosse, soccer, swimming and tennis, all at 100). **Ten of 11 women's sports ranked first, all with 100 scores.**

B. Academic Progress Rate (four-class compilation from 2013-14 through 2016-17)

- Notre Dame ranked second among FBS programs with 13 sports receiving APR public recognition awards for ranking in the top 10 percent of squads in that sport--six men's sports (baseball, cross country, fencing, soccer, tennis, track and field) and **seven women's sports (basketball, golf, lacrosse, softball, swimming and diving, tennis, volleyball)**.
- Twelve Notre Dame sports registered perfect 1000 scores—baseball, men's cross country, men's fencing, men's soccer, men's tennis, **women's basketball, women's golf, women's lacrosse, softball, women's swimming and diving, women's tennis and volleyball**.

C. Federal Graduation Rate (entering classes of 2007 through 2010)

- Notre Dame ranked first among FBS programs for male student-athletes (92), **second for female student-athletes (96)**, second among football student-athletes (at 90) and third among black student-athletes (85).
- Notre Dame produced four men's scores that ranked first within their respective sports—fencing, golf, lacrosse and tennis at 100. **Six women's programs at 100 ranked first (rowing, fencing, golf, lacrosse, softball and tennis)**.

The Atlantic Coast Conference Academic Honor Roll annually recognizes every student-athlete at member institutions competing in any sport and achieving a 3.0 grade-point average. In 2017-18 Notre Dame had 434 student-athletes earn that distinction (second only to Duke). ACC Post-Graduate Scholarships went to **Katie Uhler and Monica Flores (women's soccer)**, Greer Martini (football) and John Sexton (men's lacrosse).

Jessica Harris earned first-team Academic All-America honors on the cross country/track and field team named by the College Sports Information Directors of America (CoSIDA).

3. Funding

Every University of Notre Dame sport has been examined annually to help determine coaching needs, operating budget, travel and scholarships, facilities, support services, promotions and scheduling. Significant increases in resources for the Olympic sports programs have been developed over the years through budget adjustments, endowment funds, outside contributions and a major marketing effort. **Of particular note are budgetary increases for the women's programs. In 1986-87 the total operating budget for women's athletics was \$880,820.50; in 2017-2018 that amount reached \$20.74 million. The "budgetary outlay" for Notre Dame women's sports has included a significant 18-year jump from 1999-2000 (\$5.83 million) to 2017-18 (\$20.74 million), an increase of more nearly \$15 million as the amount has more than tripled during that 18-year span.**

4. Participation and Financial Aid

The dramatic increase in the number of University of Notre Dame varsity sport offerings for women attempts to parallel the increase in the size of the undergraduate female population. In 1978 only 23 percent of the undergraduate population was female. That female ratio grew 33 percent in 1987 38 percent in 1992 and by October 2013 the undergraduate population was 47.4 percent female. From 1988 to 2017-18, the percentage of total budgeted grants-in-aid awarded to women increased from 19.0 percent of total grants-in-aid to 41 percent of total grants-in aid. **Together with fulfilling its commitment to add two new women's programs (lacrosse in 1996 and rowing in 1998), Notre Dame completed a five-year plan in 2000 that resulted in the addition of 22 scholarships to new and existing women's programs.** Additionally, under the leadership of former athletics director Kevin White, the athletic department completed a four-year plan to provide all 26 varsity sports with the maximum number of scholarships permitted under NCAA regulations. The plan was completed in 2004-05. **Among other goals this plan added 36 additional scholarships to Notre Dame women's varsity programs.**

The University would like to provide additional information concerning Table 6 (Athletically Related Student Aid). First, the athletic student aid detailed in Table 6 includes funding provided for athletes to attend summer school. Athletes are recommended for summer school by their coaches or by the Office of Academic Services for Student-Athletes. Due to new NCAA legislation, student-athletes who received athletics aid in any amount during the academic year are now eligible to receive a full athletics aid award for the following summer term. Therefore, the Athletics Department funded all qualifying student-athletes at 100% for the summer 2017 term. **Second, although all women's programs are fully-funded by the University, the number of scholarships actually awarded is at the discretion of head coaches. During the 2017-18 athletic year, Notre Dame women's sports programs used 129 of 136 scholarships allotted to their programs.**

5. Facilities

The University of Notre Dame boasts some of the nation's best athletic facilities for its varsity teams. The past two decades have seen Notre Dame athletics experience a tremendous growth, both in terms of number of programs and number and quality of facilities. **The 1970s saw the addition of women's athletics** and, at the same time, several men's programs gained varsity status. Notre Dame currently sponsors 26 varsity sports (13 men's and **13 women's**), all of which have earned or are on their way to national prominence. Along with the growth has come a vast expansion of the University's facilities for its intercollegiate athletic teams.

In 2002-03 the athletic department's master plan for upgrading, renovating and adding new facilities was presented to the University's administration to incorporate into its overall master plan being developed for the University's future growth. Included in the athletic plans were improvements to enhance the facilities available for all 26 varsity sports over a 10-year span. Now that the facilities addressed in that plan virtually all have come to fruition, the athletics department has created a new master plan to address additional facility needs in the decade to come.

Here's a listing of Notre Dame's athletic facilities, including their most recent additions and improvements:

-- **Notre Dame Stadium**--Originally opened in 1930 and enlarged to a capacity of 80,795 in 1997, it serves as the home to Notre Dame football and qualifies as one of the most historic campus football facilities anywhere in the country. As of 2017 Notre Dame Stadium became not only a centerpiece of the University's campus and physical plant but also one of the most effective combinations and commitments to athletics, academics and student life anywhere in major college sports. The Campus Crossroads Project, the largest construction project in the University's history, began in November 2014 and added structures to the east (Corbett Family Hall), west (Duncan Student Center) and south (O'Neill Hall) sides of the stadium for academic and student life divisions, with all construction concluded in time for the 2017 football season. Notre Dame Stadium, now with a capacity of 77,622, for 2017 added three levels of premium seating on the east and west sides, wider seats in the lower bowl, upgraded concession and restroom facilities, a 1930s art deco look to the main concourse, a video board and ribbon boards, plus new displays honoring Irish football award winners. The north end features a renovated Notre Dame locker room and Schivarelli Lounge dedicated to game day recruiting, plus a new visiting team locker room and post-game media areas. The traditional tunnel entrance for the Irish squad was redone to include additional brickwork--and there's a new visiting team field entrance at the northeast corner of the field. FieldTurf was installed at Notre Dame Stadium in 2014.

-- **Purcell Pavilion at the Joyce Center**—A \$26.3 million renovation reopened the facility for the 2009-10 men's and **women's basketball and volleyball** seasons, with all-new, blue, chair-back seating for 9,149 fans. The Rosenthal Atrium is the new, three-level southern entrance to the building and includes ticket offices and a varsity shop, and Club Naimoli provides club seating for games and other events. A center-hung scoreboard and video board was added in 2010-11.

-- **Joyce Center Fieldhouse (north dome)**--The former upstairs fencing gym is now home for conditioning and dry land training for the Irish rowing program. The north dome includes three new basketball courts for general student use. The Pit is used as an additional basketball and volleyball practice site and features the floor used for the 2014 NCAA Women's Basketball Championship regional held at Notre Dame.

Castellan Family Fencing Center—Notre Dame's fencing venue occupies the far north end of the Joyce Center. The \$1.4 million facility that opened in October 2012 with new locker rooms, coaching offices, team room, armorer's office and storage and 20 new strips for practice and competition serves as the home of the Irish men's and women's fencing programs.

-- **Compton Family Ice Arena**—The \$50 million facility that opened in October 2011, with seating for 5,000 spectators as well as an additional Olympic-sized sheet of ice to serve University and community needs, houses Notre Dame hockey. Compton already has been the site of an NCAA Men's Hockey Championship regional as well as the annual fall site for the NHL Chicago Blackhawks' training camp. In addition, the Notre Dame women's volleyball team has played host to events in this facility.

-- **Arlotta Stadium**--Opened for the 2010 seasons, Arlotta Stadium is home to the Irish men's and women's lacrosse teams. The facility houses locker and team rooms, as well as a satellite training area. The venue has 2,500 permanent seats.

-- **Alumni Stadium**--Opened in fall 2009, the 2,500-seat venue is home to Notre Dame men's and women's soccer. The facility also features locker and team rooms and a satellite training room.

-- **Melissa Cook Stadium**—The \$4.9 million facility for Irish softball since 2008 has seating for 1,250 fans. The stadium houses locker and team rooms. New outdoor batting cages were constructed in 2011.

-- **LaBar Practice Complex**--Opened in 2008 as the practice facility for Notre Dame football, it includes two FieldTurf fields and one grass field, plus lights and video towers. Two new FieldTurf fields were installed in the summer of 2015.

-- **Guglielmino Athletics Complex**—The 96,000-square-foot facility that serves as the day-to-day headquarters for Notre Dame football opened in 2005. It's equipped with football offices, meeting rooms and a football locker room, plus training, strength and conditioning and meeting facilities used by all 26 varsity athletic programs.

-- **Warren Golf Course**--Opened in 2000 and the home course for both the Irish men's and women's golf teams, this Coore and Crenshaw course is ranked as the one of the top 15 collegiate courses nationally and most recently played host to the 2011 NCAA Women's Golf Championship Central Regional (that event comes to Notre Dame again in 2020). The Warren Course will be the home of the 2019 U.S. Senior Open Championship and is undergoing a series of improvements in anticipation of that event.

-- **Robert and Marilyn Rolfs Family All-Season Varsity Golf Facility**—The \$2.1 million indoor golf structure includes locker and team rooms, coaches offices, a 5,000-square-foot indoor pitching and putting area, six heated indoor/outdoor hitting bays and a state-of-the-art video analysis system. It opened prior to the 2006-07 season and is day-to-day headquarters for the Irish men's and women's golf teams.

-- **Frank Eck Stadium**--Opened in 1994 as the 2,000-seat facility for Irish baseball, it received a major upgrade in 2011 as the home clubhouse was remodeled and named the

Pat Murphy Locker Room. A full FieldTurf surface was added in 2014, and the Murphy Family Team Room was completed in 2017.

-- **Eck Tennis Pavilion**--Opened in 1987, it's the year-around indoor home to the Irish men's and women's tennis squads. The men's and women's locker rooms were upgraded in 2012 and the entire facility was renovated in 2015.

-- **Loftus Center**--Opened in 1987, it's the indoor venue of Notre Dame's track and field program, as well as the indoor practice facility for all varsity athletic field sports. A new FieldTurf surface was installed in 2013-14.

Haggar Fitness Complex--Originally opened in 1987, it doubled in size when the Gug opened in 2005. It contains strength and conditioning facilities for all Irish sports teams, including a 45-yard artificial turf field for speed work, a Gatorade hydration station and offices for the strength staff.

-- **Rolfs Aquatic Center**--Opened in 1987 on the east side of the Joyce Center, it is home to the Irish men's and women's swimming and diving squads. Locker room renovations were completed for the 2011 season and a new digital scoreboard was recently added. The facility received a cosmetic renovation in 2018 featuring new carpet, paint, LED lighting and code related improvements.

-- **McConnell Family Boathouse**--Dedicated in September 2016, this \$4 million, 15,000-square-foot facility on the St. Joseph River accommodates the Irish varsity women's rowing squad and the University club team. It includes four boat bays, offices, team and coaching locker rooms and multi-purpose space.

-- **Harris Family Track and Field Stadium**—This two-phase project (the \$5.85 million phase one was completed in 2017) features a structure that includes men's and women's locker rooms, coaching locker rooms and team space, athletic training as well as timing and media areas. Phase two adds stadium seating restrooms and concessions and a video scoreboard and is set to open in the fall of 2018. The stadium surrounds the \$3 million Mondo track that opened in 2010.

-- **Stinson Field**—Dedicated in 2013, it features a FieldTurf surface as home for Irish rugby, as well as for use by club teams, intramural sports, varsity camps and occasional varsity soccer practices.

-- **Rolfs Athletics Hall**--Construction began in January 2018 on a new men's and women's basketball practice facility in the former Rolfs Sports Recreation Center. The facility features an inner lobby for greeting visitors, identical practice courts, video theatres, team rooms, practice locker rooms, coaches' office suites and conference rooms for each program. Identical practice space will allow both programs to practice simultaneously and include full replicas of the court in Purcell Pavilion and side baskets for additional drills. Adjacent to the courts on the lower level is a basketball performance center, with shared strength and conditioning space, a Gatorade nutrition area and an athletic training area with two in-ground hydrotherapy tubs. Both teams began use of the facility in the fall of 2018.

-- **Indoor Practice Facility**--Construction began on a new indoor practice facility in the spring of 2018. That venue includes a full football field. The indoor facility will be completed by July 2019, and will be used by football and men's and women's soccer.

Several other projects are planned to help bring all of Notre Dame's varsity programs into state-of-the-art settings for their practices and competition. Construction for these additional projects will begin once they are fully funded and designed.

6. Celebrating History

Notre Dame opened its doors to female students in 1972 and from that time has demonstrated a commitment to creating well-supported opportunities for female student-athletes. Since that time, Notre Dame added 14 varsity women's sports (with one dropped) during that 46-year span (field hockey was dropped in 1988 due to dwindling student interest, lack of regional competition and scheduling problems).

Fencing and tennis were the first women's sports to gain official varsity status, beginning in the 1976-77 academic year. **The two most recent additions to women's sports, lacrosse and rowing, gained their respective varsity status in 1996 and 1998.** These additions bring the number of women's sports to 13, matching the number of offerings for men.

Notre Dame in 2013 installed a new display on a wall of the Joyce Center (near the athletics department offices) to celebrate 40 years of women's athletics at the University.
